TO WHOM IT MAY CONCERN:

Reference: Mr. Grant Jones

Our firm has worked with Mr. Jones on the design of computerized control systems since 1988. He has been very helpful in the design of these systems. These systems have been implemented in educational facilities in Southern California. Mr. Jones has shown a profound knowledge of these systems, the associated construction techniques and National Electrical Code requirements. He has always made himself available whenever we have required his assistance.

He has been very cooperative, conscientious and dependable. It is a pleasure to recommend his services to you.

Sincerely,
