

Walnut Valley Unified School District

880 South Lemon Avenue, Walnut, California 91789 • (909) 595-1261 • Fax (909) 595-9626 • Ronald W. Hockwalt, Ed. D., Superintendent

December 15, 1995

Subject: Grant Jones

To whom it may concern:

I have known Grant Jones and he has done work for us for the past 15 years. Grant has worked in the areas of electrical and electronic systems installation and maintenance, alarm system installation and maintenance, and energy management system installation and maintenance. He has written the computer program currently used by the school police department and the dispatcher(s) at Cal Poly that annunciate security alarms coming in from facilities within the district. Grant has also worked with our architects and engineers in the design of systems in our district facilities.

Grant has demonstrated an in-depth knowledge of the installation and maintenance of electrical and electronic systems, alarm systems, energy management systems, computer hardware and software. He also has a broad knowledge in the areas of building design, code requirements, and construction. He has coordinated the installation of many of these systems within the district. He possesses a very wide array of qualifications. We have been very fortunate to be affiliated with Grant. The services he has provided us have been superior. He has backed everything he has done and has responded rapidly any time the need has arisen.

Grant is a very cooperative and efficient worker. He has always completed tasks in a timely manner and he has been very successful in the training he has provided district personnel in the systems and software he has furnished. Grant has gotten along very well with all of the employees here.

It has been a pleasure to work with him and I strongly recommend him for any position or service for which he may be qualified to accept.

Sincerely,

Henry A. Carter
Director of Maintenance and Operations
